

ARG23970 Pig anti-Rabbit IgG (H+L) antibody, pre-adsorbed

Package: 500 µg
Store at: -20°C

Summary

Product Description	Pig Polyclonal antibody recognizes Rabbit IgG (H+L)
Tested Reactivity	Rb
Species Does Not React With	Hu, Ms, Rat, Bov, Chk, Goat, Gpig, Hm, Hrs, Sheep
Tested Application	ELISA
Specificity	The antibody reacts with the heavy and light chains of rabbit IgG and the light chains of rabbit IgM. The antibody is pre-adsorbed with human, mouse, rat, goat, hamster, bovine, horse, sheep, chicken and guinea pig serum proteins, so the antibody may not react with immunoglobulins from above species, but may react with immunoglobulins from other species and the light chains of other rabbit immunoglobulins.
Host	Pig
Clonality	Polyclonal
Isotype	IgG
Target Name	IgG (H+L)
Species	Rabbit
Immunogen	Rabbit IgG
Conjugation	Un-conjugated

Application Instructions

Pre Adsorbed	Human, mouse, rat, goat, hamster, bovine, horse, sheep, chicken and guinea pig serum proteins.				
Application table	<table> <tr> <th>Application</th><th>Dilution</th></tr> <tr> <td>ELISA</td><td>1 µg/ml</td></tr> </table>	Application	Dilution	ELISA	1 µg/ml
Application	Dilution				
ELISA	1 µg/ml				
Application Note	* The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.				

Properties

Form	Liquid
Purification	Affinity purification with immunogen.
Buffer	BBS (pH 8.2) (0.6% Boric acid, 0.95% Sodium tetraborate and 0.4% NaCl).
Concentration	1 mg/ml
Storage instruction	For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C or below. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use.
Note	For laboratory research only, not for drug, diagnostic or other use.
