

## Product datasheet

info@arigobio.com

# ARG24169 anti-Acetaminophen antibody

Package: 500 μl Store at: -20°C

### **Summary**

Product Description Sheep Polyclonal antibody recognizes Acetaminophen.

Tested Reactivity Chem

Tested Application IA, IHC-P

Host Sheep

**Clonality** Polyclonal

Isotype IgG

Target Name Acetaminophen

Immunogen P-Aminophenol hemisuccinide conjugated to keyhole limpet hemocyanin.

Conjugation Un-conjugated

Alternate Names acetaminophen; Paracetamol; 4-Acetamidophenol; 103-90-2; Tylenol; N-(4-Hydroxyphenyl)acetamide;

APAP; Panadol; N-Acetyl-p-aminophenol; 4'-Hydroxyacetanilide; Acetaminofen; Datril; p-

Hydroxyacetanilide; p-Acetamidophenol; Algotropyl; Doliprane; Injectapap; Lonarid; Naprinol; Acenol

### **Application Instructions**

Application table	Application	Dilution
	IA	Assay-dependent
	IHC-P	Assay-dependent
Application Note	* The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.	

### **Properties**

Form Liquid

Buffer PBS and 0.1% Sodium Azide

Preservative 0.1% Sodium Azide

Storage instruction For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot

and store at -20°C or below. Storage in frost free freezers is not recommended. Avoid repeated

freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed

before use.

Note For laboratory research only, not for drug, diagnostic or other use.

#### Bioinformation

Background Paracetamol is a member of the class of phenols that is 4-aminophenol in which one of the hydrogens

attached to the amino group has been replaced by an acetyl group. It has a role as a cyclooxygenase 2

www.arigobio.com argo.nuts about antibodies 1/2

inhibitor, a cyclooxygenase 1 inhibitor, a non-narcotic analgesic, an antipyretic, a non-steroidal anti-inflammatory drug, a cyclooxygenase 3 inhibitor, a xenobiotic, an environmental contaminant, a human blood serum metabolite, a hepatotoxic agent, a ferroptosis inducer and a geroprotector. It is a member of phenols and a member of acetamides. It is functionally related to a 4-aminophenol.

Research Area

LiverTox, Drug
