ARG58746 anti-ZEB2 antibody

Package: 100 μl Store at: -20°C

Summary

Product Description Rabbit Polyclonal antibody recognizes ZEB2

Tested Reactivity Hu, Ms, Rat
Tested Application IHC-P, WB
Host Rabbit
Clonality Polyclonal

Isotype IgG
Target Name ZEB2

Species Human

Immunogen Recombinant fusion protein corresponding to aa. 1050-1214 of Human ZEB2 (NP_055610.1).

Conjugation Un-conjugated

Alternate Names Zinc finger E-box-binding homeobox 2; SIP-1; SIP1; SMADIP1; Smad-interacting protein 1; Zinc finger

homeobox protein 1b; HSPC082; ZFHX1B

Application Instructions

Application table	Application	Dilution
	IHC-P	1:50 - 1:200
	WB	1:500 - 1:2000
Application Note	* The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.	

Properties

Form Liquid

Purification Affinity purified.

Buffer PBS (pH 7.3), 0.02% Sodium azide and 50% Glycerol.

Preservative 0.02% Sodium azide

Stabilizer 50% Glycerol

Storage instruction For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot

and store at -20°C. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use.

Note For laboratory research only, not for drug, diagnostic or other use.

Bioinformation

Gene Symbol ZEB2

Gene Full Name zinc finger E-box binding homeobox 2

Background The protein encoded by this gene is a member of the Zfh1 family of 2-handed zinc finger/homeodomain

proteins. It is located in the nucleus and functions as a DNA-binding transcriptional repressor that

interacts with activated SMADs. Mutations in this gene are associated with Hirschsprung

disease/Mowat-Wilson syndrome. Alternatively spliced transcript variants have been found for this

gene.[provided by RefSeq, Jan 2010]

Function Transcriptional inhibitor that binds to DNA sequence 5'-CACCT-3' in different promoters. Represses

transcription of E-cadherin. [UniProt]

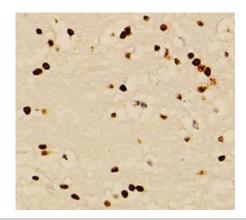

Calculated Mw 136 kDa

PTM Sumoylation on Lys-391 and Lys-866 is promoted by the E3 SUMO-protein ligase CBX4, and impairs

interaction with CTBP1 and transcription repression activity. [UniProt]

Cellular Localization Nucleus. [UniProt]
