

## ARG64457 anti-COL4A3BP antibody

Package: 100 μg Store at: -20°C

# Summary

Product DescriptionGoat Polyclonal antibody recognizes COL4A3BPTested ReactivityMsPredict ReactivityHuTested ApplicationWBSpecificityThis antibody is expected to recognise both reported isoforms (NP_005704.1 and NP_112729.1)HostGoatClonalityPolyclonalIsotypeIgGTarget NameCOL4A3BPSpeciesHumanImmunogenDHDSAPLNNRCConjugationUn-conjugatedAlternate NamesSTART domain-containing protein 11; STARD11; Goodpasture antigen-binding protein; StARD11; Ceramide transfer protein; CERTL; StAR-related lipid transfer protein 11; CERT; GPBP; MRD34; Collagen type IV alpha-3-binding protein; hCERT

	Alternate Names	Ceramide transfer protein; CERTL; StAR-related lipid transfer protein 11; CERT; GPBP; MRD34; Collagen

## **Application Instructions**

Application table	Application	Dilution
	WB	0.3 - 1 μg/ml
Application Note	WB: Recommend incubate at RT for 1h. * The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.	

# Properties

Form	Liquid
Purification	Purified from goat serum by antigen affinity chromatography.
Buffer	Tris saline (pH 7.3), 0.02% Sodium azide and 0.5% BSA.
Preservative	0.02% Sodium azide
Stabilizer	0.5% BSA
Concentration	0.5 mg/ml
Storage instruction	For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C or below. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed

before use.

For laboratory research only, not for drug, diagnostic or other use.

#### Bioinformation

Database links	GenelD: 68018 Mouse
	Swiss-port # Q9EQG9 Mouse
Background	This gene encodes a kinase that specifically phosphorylates the N-terminal region of the non- collagenous domain of the alpha 3 chain of type IV collagen, known as the Goodpasture antigen. Goodpasture disease is the result of an autoimmune response directed at this antigen. One isoform of this protein is also involved in ceramide intracellular transport. Three transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Jul 2008]
Research Area	Cancer antibody; Cell Biology and Cellular Response antibody; Immune System antibody; Metabolism antibody; Signaling Transduction antibody
Calculated Mw	71 kDa
РТМ	Phosphorylation on Ser-132 decreases the affinity toward phosphatidylinositol 4-phosphate at Golgi membranes and reduces ceramide transfer activity. Inactivated by hyperphosphorylation of serine residues by CSNK1G2/CK1 that triggers dissociation from the Golgi complex, thus down-regulating ER-to-Golgi transport of ceramide and sphingomyelin synthesis.

#### ARG64457 anti-COL4A3BP antibody WB image

Western blot: 35  $\mu$ g of Mouse heart lysate (in RIPA buffer) with (B) and without (A) blocking peptide. The blots were stained with ARG64457 anti-COL4A3BP antibody at 0.5  $\mu$ g/ml dilution and incubated at RT for 1 hour.
