

ARG67189 anti-Avian Influenza A H6N2 Hemagglutinin antibody [H6/4C2]

Package: 100 µg
Store at: -20°C

Summary

Product Description	Mouse Monoclonal antibody [H6/4C2] recognizes Avian Influenza A H6N2 Hemagglutinin
Tested Reactivity	AIV
Tested Application	ICC/IF, WB
Host	Mouse
Clonality	Monoclonal
Target Name	Avian Influenza A H6N2 Hemagglutinin
Species	Influenza A virus
Immunogen	H6N2 Avian Influenza A Virus
Conjugation	Un-conjugated
Alternate Names	Avian A (H6N2) influenza Virus, Avian influenza A (H6N2) Virus

Application Instructions

Application table	Application	Dilution
	ICC/IF	
	WB	
Application Note	* The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.	

Properties

Form	Liquid
Purification	Affinity purified.
Buffer	PBS, 0.05% Sodium azide and 20% Glycerol.
Preservative	0.05% Sodium azide
Stabilizer	20% Glycerol
Storage instruction	For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C or below. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use.
Note	For laboratory research only, not for drug, diagnostic or other use.

Bioinformation

Gene Full Name	Avian A (H6N2) influenza Virus
----------------	--------------------------------

Background

H6N2 can cause a serious problem for poultry, and also infects ducks as well. H6N2 subtype is considered to be a non-pathogenic chicken virus, the host still unknown, but could strain from feral animals, and/or aquatic bird reservoirs.
